FOR: STORAGE OF MATERIALS

Prior to examination on the merits, please amend this application as follows.

PRELIMINARY AMENDMENT

I. IN THE CLAIMS

Please cancel claims 1-16.

Please add the following new claims.

-- 17. A process of forming a composition which is storage-stable at 20° C, said composition comprising the steps of:

(1) dissolving to form an aqueous solution

(a) a carrier substance which is water-soluble or water-swellable and

(b) at least one material to be stored;

(2) evaporating liquid water from said solution to convert said solution into a composition in a glassy state;

wherein said composition has the properties that it is storage-stable and exists in said
